GLOSSARY OF TERMS

(DISCLAIMER: These definitions were provided by the Kentucky Department of Education. When any term or explanation in this Glossary of Terms is in conflict with the actual wording in an insurance contract, the insurance contract wording would prevail.)

AGREED AMOUNT - An amount of insurance specified in the contract as being sufficient to nullify the effect of the coinsurance clause of the contract. The coinsurance formula is defined as follows:
(Amount of insurance in force divided by the amount of insurance required to meet the coinsurance) multiplied by the loss. The above formula would work like this: District carries \$80,000 of coverage but should carry \$100,000 to meet 100% coinsurance. The property loss is \$200,000:
 $\$80,000/\$100,000 = .80 \times \text{loss of } \$200,000 = \$160,000 \text{ paid less deductible.}$

COINSURANCE - A form of property insurance in which the insured shares in losses proportionately to the extent that the amount of insurance falls short of a specified percentage of the value of the insured property. Coinsurance provides for the full payment up to the amount of the policy, of all losses if the insured has insurance at least equal to the named percentage of the value of the property covered. The loss payment in the case of most partial losses is reduced proportionately, if the amount of insurance falls short of the named percentage. Coinsurance is designed to provide a rate credit for carrying an agreed proportion of insurance to value.

DEDUCTIBLE - An amount to be deducted from a loss, to be assumed by the insured.

REPLACEMENT COST - Insurance providing that the insured will be paid the cost of replacing the damaged property without deduction for depreciation, subject to the policy limit.

ACTUAL CASH VALUE - The present-day value of property arrived at by taking the replacement cost and deducting for depreciation brought about by physical wear and tear, and obsolescence.

BLANKET COVERAGE - Insurance covering more than one class of property at a single location, or one or more classes of property at more than one location.

BOILER AND MACHINERY INSURANCE - Insurance against loss due to accidents to boilers, pressure vessels or machinery.

REAL PROPERTY - Of or pertaining to permanent immovable things. Buildings or structures including additions and extensions; fences, signs, light poles, awnings, plate glass, underground pipes, satellite dishes, antennas, fixtures, machinery and equipment constituting a permanent part of and pertaining to the service of the building.

PERSONAL PROPERTY - Any property that is not real property and that is movable or not attached to the land. Business personal property, owned by the Insured, usual to the occupancy of the Insurance, includes but not limited to property of others, property off premise, property in the out of doors, property in transit, and leased and rented property.

SELF-INSURANCE FUND - Employers who engage in similar activities with smaller risks, may form an association to self-insure their liability. The fund members pay premiums to the fund. The fund is administered by a group of trustees who collect and manage the group funds, pay claims, and purchase specific excess and aggregate excess insurance. Any fund surplus is returned to group members as a dividend and any fund deficit must be paid by the group members as an assessment.

ENDORSEMENT - A change, as of coverage, written on or added to an insurance policy.

BOILER - A closed vessel in which water or other liquid is heated, steam or vapor is generated, steam is superheated, or in which any combination of these functions is accomplished, under pressure or vacuum, for use externally to itself, by the direct application of energy from the combustion of fuels, or from electricity, solar or nuclear energy.

STEAM BOILER - For purposes of this invitation a steam boiler is construed to be any boiler (hot water or steam) operating at more than fifteen (15) pounds per square inch gauge. Domestic hot water heating boilers are not included.
